Reasons for Allowance

1. Claims 1-24, 26-28, 30-35 are allowed.
2. The following is an examiner's statement of reasons for allowance:
 3. Claims 1, 8, 14, 15, 18, 19 and 33 are found to be allowable over the prior art because the use of the existing cellular infrastructure in the transmission of the data from the aircraft to the flight operations center defines over the prior art. In existing systems, an airport specific wireless communication system is used for the transmission of data (see applicant's specification, page 2, lines 3-15). The use of an existing cellular infrastructure to transmit the data results in a significant cost savings over the systems of the prior art (see applicant's specification page 2, line 24 – page 3, line 1).
 4. Claims 2-7, 9-13, 16-17 and 20-24 server to further define the invention over the prior art.
 5. Claims 26-28, 30-32 and 34-35 were indicated as allowed in the Office Action dated 2/9/2000.
 6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. An updated search revealed Wright et al. (US 6,047,165). Wright teaches a wireless, frequency-agile spread spectrum ground link-based aircraft

data communication system. In the system taught by Wright, aircraft data is wirelessly downloaded via an airport specific RF communications system, upon landing of the aircraft.
